

RADU SERGIU GUGLES

Software Developer · Full-Stack · IoT & Real-Time Systems

+39 320 825 2723 | gugles.radu@gmail.com | Turin, Italy

[GitHub](#) | [Portfolio](#) | [LinkedIn](#) | [krou.app](#)

PROFILE

Software developer with 3+ years of hands-on experience in full-stack development and game programming. Designed and shipped complete applications — from backend logic to user interfaces — working in multidisciplinary Agile/Scrum teams and on independent personal projects. Strong expertise in C#, C++, TypeScript and Unreal Engine 5. Focused on modular architecture, code quality and practical problem-solving.

SOFTWARE PROJECTS

Krou · Full-Stack Developer · Personal Project [\[Live\]](#)

Next.js · TypeScript · Supabase · Railway · PostgreSQL · REST API

- Designed and built a full-stack SaaS for digital restaurant menus via QR code, with server-side code generation and dynamic menu rendering for end customers.
- Implemented a waitlist-based authentication system: accounts are locked on registration and manually approved, preventing unauthorized access.
- Built a menu management dashboard (add, edit, remove dishes and categories) designed for non-technical users.
- Deployed on Railway (backend/DB) and Supabase (auth/storage), with custom domain at krou.app.

EXPERIENCE

Warehouse Associate — Amazon Fresh

March 2025 – March 2026 · Turin, Italy

- Managed inbound/outbound flows consistently meeting productivity KPIs and shipping deadlines.
- Operated PIT equipment for pallet handling, quality control and goods receiving.
- Trained and onboarded new hires on operational procedures and workplace safety standards.

ACADEMIC PROJECTS

Projects developed in multidisciplinary teams (programmers, artists, designers) using Agile/Scrum methodology.

Arxcana · Lead Developer [\[itch.io\]](#)

Unreal Engine 5 · C++ · Blueprint · Game Systems Design

- Designed and implemented the full gameplay system: interactive tarot card carousel, card-specific ability logic and puzzle integration.
- Developed the complete game loop — state management, win/fail conditions, transitions — using modular Blueprint architecture with performance-critical components in C++.
- Architected systems for extensibility: adding new cards or puzzles requires no changes to existing code.

Carpe Noctem · Gameplay & Shader Programmer [\[itch.io\]](#)

Unity · C# · VFX Graph · HLSL · Dialogue System

- Developed a custom blood shader in HLSL with VFX Graph: liquid simulation, dissolve effects and particle systems optimized for real-time performance.
- Implemented a branching dialogue system with narrative state management for a visual novel.
- Built the bartender simulation logic: ingredient management, recipe validation and player action feedback.

Rhino Blocks · Lead Developer [\[itch.io\]](#)

Unity · C# · Grid System · Pathfinding · UI/UX

- Designed and implemented a 2D array-based grid system for block placement and path validation.
- Built a custom pathfinding algorithm: the character sprite traverses the grid following player-placed blocks, simulating smooth directional movement without physics.

– Implemented the full UI (Unity Canvas): main menu, settings, player profiles, level selection and HUD — including 2D artwork.

TECHNICAL SKILLS

Languages: C#, C++, TypeScript, JavaScript, Python, Java, Kotlin, PHP

Frontend / Markup: HTML, CSS, XML

Frameworks & Engines: Unreal Engine 5 (Blueprint + C++), Unity, Next.js, .NET, Android Studio

Shader & VFX: HLSL, VFX Graph (Unity)

Backend & API: REST API, Supabase, Railway, AWS (basic)

Database: MySQL, PostgreSQL

Versioning & Tools: Git, CI/CD, Agile/Scrum

Core competencies: OOP, Modular Software Architecture, UI/UX, Database Management

EDUCATION

Master in Game Development · Event Horizon School · 2022 – 2024

Computer Science (undergraduate studies) · University of Turin · 2019 – 2022

Technical Diploma – Software Developer · Meg Italia Srl · 2019

Scientific High School Diploma · I.I.S. Curie Vittorini · 2014 – 2019

LANGUAGES

Italian: native · **Romanian:** native · **English:** fluent · **Spanish:** B2
